

Lincoln School Campus Reopening

Progress Report

July 17, 2020

Maximizing our outdoor space for learning and activities

Learning Moves Outdoors

Installation of commercial grade, waterproof tents on campus

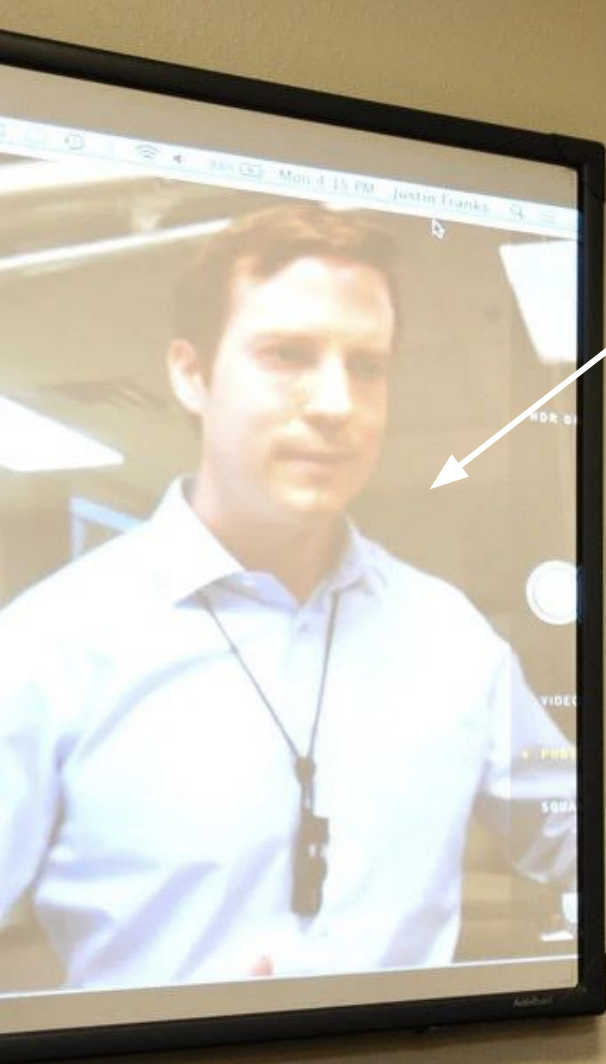

Enhancements to the Elementary & Secondary School Online Learning Platform

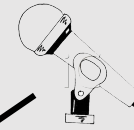

Through Robot Technology, Swivl, Lincoln students who are at home will be able to view the teacher through live streaming and screencasting while the class is on campus. In addition to our other online teaching tools, students in different time zones will be able to view recorded lessons online.

This technology will allow students to be connected to the teacher through attending class, live broadcasts and recorded sessions.

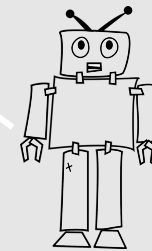

As you can see,
the the Ipad
captures and
broadcasts the
image, sound,
and video.

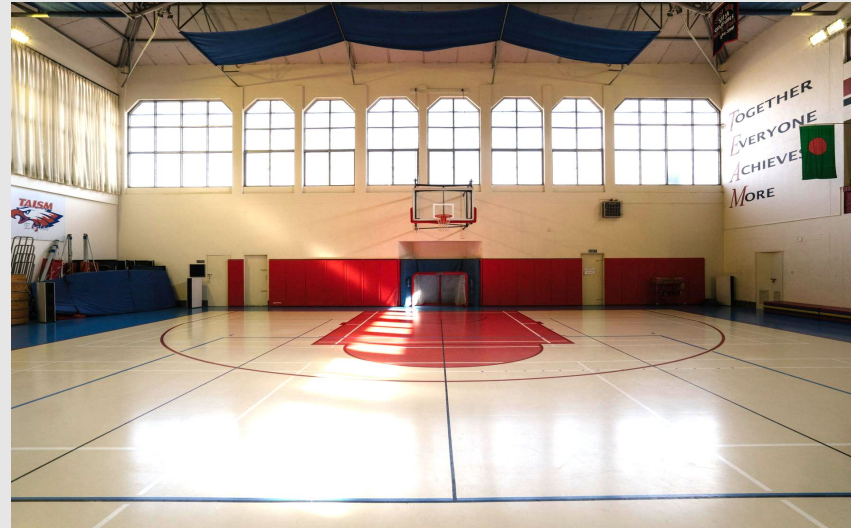

The Marker provides a microphone and a signal to follow for the robot.

Swivl Robot Technology

This is called a Swivl. It is a robotic tracking and recording system that allows a teacher to walk around the room while the device follows the teacher, recording or broadcasting the video.

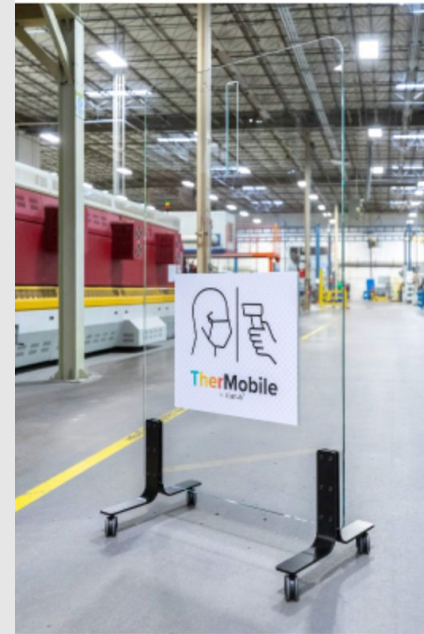

During our time on campus, students will take full advantage of the Lincoln School facilities including the pool, gymnasium, turfied playing field, outdoor courts and turfied playgrounds.

Facilities Use

Public Health Resources: Campus

Campus Safety Enhancements from US State Department
COVID Grant Funding

Public Health Resources: Sanitation Stations

With personal hygiene as a focus, we have installed a variety of resources to promote student, teacher, and staff safety on campus.

Public Health Resources: Training

The Lincoln School Response Team and Public Health Specialist, Dr. Bernadette Kumar have conducted in depth safety training with all Lincoln School Staff. Education and training will remain an important aspect of building skills and capacity among Lincoln School staff and students.

Plexiglass Shields have been installed on all our buses to separate the driver cabin from the passenger cabin. Buses will carry reduced student numbers to ensure safe distancing. Temperature checks will be conducted for all transportation access and safe ventilation will be prioritized.

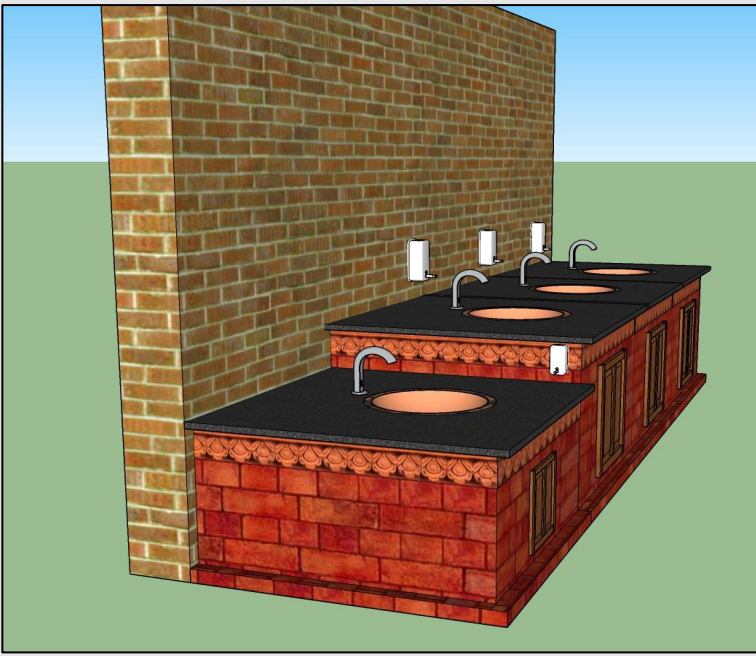

Shields on buses are effective in providing:

- Safe separation between the driver and passenger cabins.
- Distancing barriers to help reduce exposure and cross-contamination.
- Effective solutions against droplets from coughing or sneezing.

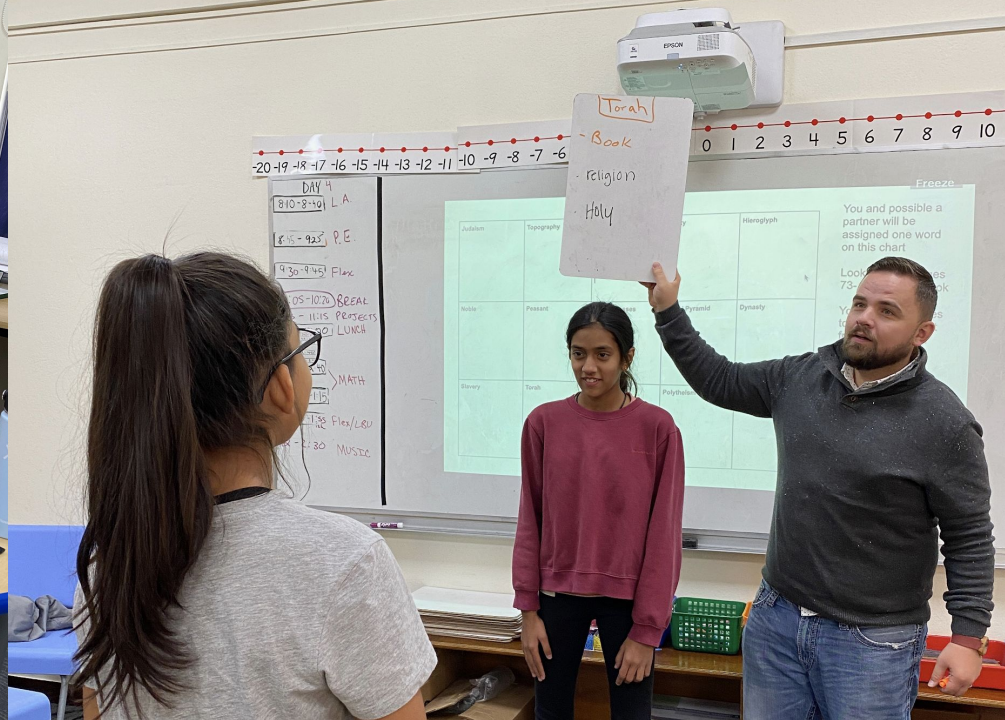

Public Health Resources:
Transportation

Public Health Resources: Risk Mitigation

- Mandatory face masks
- Hands free faucets and soap dispensers installation (installation in progress)
- Touch free water bottle filling stations (on order)
- Student stop spots for arrival and dismissal
- Cones and hula hoops mark the stop where students line up to ensure social distancing

Lincoln School Teacher are:

- recruited from abroad
- experienced internationally and in the US
- professionally certified
- highly educated and trained
- strongly recommended in their field
- dedicated to their students
- committed to providing extra-curricular experiences
- empathetic, flexible and accommodating
- skilled in the use of instructional technology

Lincoln School Faculty Arriving in July

Pam Legere, Elementary School Teacher
Joining us from Colegio Americano de Torreon, Mexico

Tim Legere, Elementary School Teacher
Joining us from Colegio Americano de Torreon, Mexico

Megan Highfill, Elementary Music Teacher
Joining us from The International School of Panama

Michele Nelson, Elementary Art & Design
Joining us from Carrboro-Chapel Hill City Schools, North Carolina

Cara Reid, Elementary Student Support & ESOL
Joining us from St. Mary's International School, Tokyo, Japan

Doug Sirkka, Director of Technology
Joining us from St. Mary's International School, Tokyo, Japan

Erika Beedle, Grade 6 Teacher
Joining us from Frisco Independent Schools, Frisco, Texas

Allison O'Sullivan, School Counselor
Joining us from American School of Latvia

Jeremiah O'Sullivan, Library/Media Specialist
Joining us from American School of Latvia

Joshua Roberts, Middle School Math & Science
Joining us from The American International School in Kuwait

Rose Marie Dzugan, Language Arts and ESOL
Joining us from The American International School in Egypt

Arrival Of Our New Faculty
